- Programming Languages (e.g., Java, Python)
- Database Management (e.g., SQL)
- Serverside Frameworks (e.g., Node.js)
- RESTful APIs
- Version Control (e.g., Git)
- Web Security
- Cloud Computing
- Performance Optimization
- Debugging and Troubleshooting
- Agile Development

LANGUAGES

English

French

Arabic

German

EDUCATION

Bachelor in Computer Science

Mumbai University Jul 2016 - Apr 2019

EXPERIENCE

Back-End Developer

IBM Jun 2022 - Present

- Experience developing and maintaining serverside applications
- Strong knowledge of programming languages such as Java, Python, Ruby, or Node.js
- Proficiency in database management and query optimization (e.g. MySQL, MongoDB)
- Experience with web frameworks such as Django, Spring, or Express
- Understanding of version control systems (e.g. Git)
- Testing and debugging skills to identify and fix issues in code
- Familiarity with frontend technologies and ability to collaborate with frontend developers to integrate userfacing elements with serverside logic
- Design and implementation of data storage solutions and ensuring data security and integrity
- Collaboration with crossfunctional teams to define, design, and ship new features
- Continuous monitoring and performance optimization of applications to ensure scalability and efficiency
- Troubleshooting and resolution of serverside performance bottlenecks
- Up to date knowledge of industry trends and best practices to continually improve the development process and stay current with emerging technologies.
